

Yousif M. Elsheikh M.

+49-152-17278662 • Böblingen, DE

EDUCATION

Technische Universität Kaiserslautern 

Master of Science in Mechanical Engineering and Process Engineering (Spec. Vehicle Engineering)

2024

Kaiserslautern, DE

- Thesis: **Reinforcement Learning on Sensor Data and Reaction Grid Maps** at the Robotics Research Lab

University of Khartoum

Bachelor of Science in Mechanical Engineering – Second Class Division One

2016

Khartoum, SD

EXPERIENCE

Institute of Aircraft Systems, University of Stuttgart  —  Universität Stuttgart

Research Associate

Sep 2024 – present

Stuttgart, DE

- Verification and validation of safety-critical cyber-physical systems and deployed neural networks.

IPG Automotive GmbH 

Simulation Backend Working Student

Dec 2023 – Aug 2024

Karlsruhe, DE

- Development and Implementation of SIL-based V2X communication in CarMaker.
- Achievements – Implemented CPM messages and reception/transmission as well as encoding/decoding with abstract ASN.1.

Adam Riese GmbH 

Computer Vision Working Student

Nov 2022 – Sep 2023

Stuttgart, DE

- Implementation and delivery of YOLO v7 in a multi-stage object detection pipeline in ONNX runtime.
- Achievements – Trained, validated, benchmarked, and deployed the entire pipeline (live in Aug 2023).

WIS (Würth Industrie Service GmbH & Co. KG)  WURTH | INDUSTRY

Machine Learning Development Intern

Mar 2022 – Sep 2022

Bad Mergentheim, DE

- Development and implementation of 3D computer vision for object localization and recognition.
- Achievements – Successfully implemented 2D detection for computing the Z dimension using point cloud data and mapping to image frame – Confirmed the feasibility of directly learning the point cloud by VoteNet.

Technische Universität Kaiserslautern 

Student Research Assistant

Jul 2021 – Mar 2022

Kaiserslautern, DE

- I. RRLab (Robotics Research Lab): Underwater object detection using a FLS.
- II. Dept. of Mechanical & Process Engineering: Using GANs and autoencoders to generate GPR sensor data.

Hi-Force Engineering Works

Design Engineer

Aug 2018 – Feb 2019

Khartoum, SD

- Design conception and standardization using 3D modeling CAD for cost reduction and functionality enhancement.
- Achievements – Prepared complete technical and cost proposals winning a waterworks project (over 100k €).

University of Khartoum

Teaching Assistant

Dec 2016 – Dec 2017

Khartoum, SD

- Conducted and managed tutorial sessions. Supervised subjects included: Fluid Mechanics I, Computer Applications, Measurement and Instrumentation, and Hydraulic & Pneumatic Power Transmission.

SELECTED PUBLICATIONS

- **On the Timing Determinism of CUDA and Vulkan SC for Safety-critical AI Workloads on SoC Integrated GPUs.** Yousif M. Elsheikh*, Adrian Raiser*, Fabian Frommherz*, and Zamira Daw. *SAFECOMP 2026*.
- **Adversarial Sampling at Code Boundary.** Yassine Akhiat, Yousif M. Elsheikh, Henry Spaet, Zamira Daw, and Bjoern Annighoefer. *IEEE IRAI 2026*.

ADDITIONAL INFORMATION

- **Skills:** Simulation, Machine Learning, Reinforcement Learning, Computer Vision, Deep Learning, Autonomous Driving, Linux, Unreal Engine, CarMaker, Docker, C/C++, Python (Stable Baselines, conda, PyTorch, Pandas, NumPy), Git, CAD (SolidWorks, MATLAB + Simulink) • **Languages:** German (C1/DSH 2; LMU München, TU Kaiserslautern), English (IELTS), Arabic (Native)
